

About me

I am Alessandro, I am italian based in Amsterdam and I am passionate of sustainability and technology.

Today I will be presenting you a fun game for kids (0 - 2).

Clean the waters

video-game

Plastic is invading the water, BUT YOU CAN SAVE IT !

In this game you will collect plastic bottles from the water, the goal is to save the fish and gain points.

When a fish eats plastic by mistake, it will die and you lose 1 point.

Also when you bump onto a fish , it wil die and you lose 2 points.

It gets harder every minute

You lose when hitting -1 points !

The Player

drag the submire with the mouse

The Enemies

collect randomly generated plastic bottles

The Allies

save the fish!
